BUILD WITH US AND RELY ON OUR EXPERIENCE, INNOVATION AND CLOSE COOPERATION BASED ON PARTNERSHIP

EMPLOYEE QUALIFICATION

Everything started in 1860 with a small construction company near Osnabrück. Today the fifth generation of the Echterhoff family manages and 573 employees at ten different locations in Germany.

TRADITION, PROGRESS, EMPLOYEE-PARTNERSHIP

We always strive to establish fair and cooperative partnerships with our contracting authorities and clients as well as our joint-venture partners, sub-contractors and suppliers. We place special emphasis on the high quality of our services and completion of our work in time.

Our qualified and long-term employees as well as our extensive high-tech machine park guarantee our standards and continuous technological development.

The training of young people that has been carried out for many years by ECHTERHOFF together with the continuous advance training of our employees will continue to consolidate the excellent reputation of ECHTERHOFF in the future.

The standard of our performance is confirmed by the profit that we generate, which secures the jobs and also creates new jobs for young people. The company's loyalty and commitment to our employees is acknowledged by above-average salaries and social services.

Our employees and owners are involved in trade associations and chambers of commerce representing the interests of the construction industry. ECHTERHOFF will continue with the company's traditions and also continue to place special emphasis on future-oriented and environmentally friendly construction.

LONG-TERM PARTNERSHIPS IN ALL SECTORS

For public and private contracting authorities such as water and shipping authorities, road and motorway authorities, Deutsche Bahn AG (German railways), water and wastewater associations, energy providers, local authorities and other providers of public utilities we create the infrastructures for complicated above-ground and under-ground construction projects in the traffic, energy and disposal industries. For private and public contracting authorities we also build or renovate schools, administration buildings, industrial properties and residential estates. This covers all of the necessary constructional and organisational interests related to the property.

Long-term partnerships are very important to the ECHTERHOFF. This applies to our employees as well as to the contracting authorities, joint-venture partners, sub-contractors and suppliers. With our collaboration work we place great value on clear and fair contracts, long-term and high quality requirements in all construction sectors.
